

African Union Targets and Milestones to End AIDS, TB and Malaria by 2030

Introduction

The Catalytic Framework to End AIDS, TB and Eliminate Malaria in Africa by 2030 provides an overarching policy framework to respond effectively to the three biggest diseases on the continent. The objective of the Framework is to intensify the implementation of the 2013 Abuja Declaration commitments to end AIDS, TB and Malaria as public health threats through building Africa-wide consensus on the key strategic actions within the context of the existing targets and milestones.

HIV/AIDS

OBJECTIVES

MILESTONES AND TARGETS

	2020	2030
 <p>AIDS-related Deaths Reduce AIDS-related deaths compared with 2015</p>	<p>Less than 375,000 per year with a treatment coverage of 90-90-90</p>	<p>Less than 150,000 per year with a treatment coverage of 95-95-95</p>
 <p>HIV Infections Reduce new HIV infections compared with 2015</p>	<p>Less than 375,000 per year</p>	<p>Less than 150,000 per year</p>
 <p>EMTCT Reduce infections in children and mothers well*</p>	<p>Less than 40,000</p>	<p>0</p>
 <p>Young People empowered with skills to protect themselves from HIV</p>	<p>90%</p>	<p>100%</p>
 <p>Men and Women have access to HIV combination prevention and SRH services</p>	<p>90%</p>	<p>100%</p>
 <p>Circumcision additional men in high prevalence settings are voluntarily medically circumcised</p>	<p>27 million</p>	
 <p>Key Populations have access to HIV combination preventions services</p>	<p>90%</p>	<p>100%</p>

* Based on full implementation of Global Plan and reduction of infections from MTCT by 90% compared to 2009 levels

HIV/AIDS, CONTINUED

OBJECTIVES

MILESTONES AND TARGETS

	2020	2030
 <p>End Discrimination Compared with 2015 PLHIV and at risk of HIV report no discrimination especially in health, education and workplace settings</p>	90%	100%
 <p>Discrimination in Health Settings PLHIV and at risk of HIV report no discrimination in healthcare settings</p>	90%	100%
 <p>HIV Related Discriminatory Laws, Policies and Regulations No new HIV-related discriminatory laws, regulations and policies passed. Countries that have such laws, regulations and policies repeal them.</p>	50%	100%
 <p>Full Access to Justice Key PLHIV populations and other affected populations who report experiencing discrimination have access to justice and can challenge violations.</p>	90%	100%
 <p>Gender Violence Women and girls live free from gender inequality and gender-based violence to mitigate risk and impact of HIV.</p>	90%	100%
 <p>Social Protection PLHIV and at risk or affected by HIV, who are in need, benefit from HIV-sensitive social protection.</p>	75%	100%

STRATEGIC DIRECTIONS AND APPROACHES

1. Ensure political commitment and ownership
2. Strengthen strategic information
3. Increase domestic and international financing for AIDS
4. Support community ownership
5. Health Systems Strengthening to ensure Universal Health Coverage
6. Address HIV and Human Rights Issues
7. Enhance research and innovation to end AIDS
8. Strengthen HIV interventions for cross-border and cross-country populations

TB

OBJECTIVES

MILESTONES AND TARGETS

	2020	2025	2030
 Infection Rate Reduce number of TB cases compared with 2015	20%	50%	80%
 Mortality Rate Reduce number of TB-related deaths compared with 2015	35%	75%	90%
 Family Costs TB-affected families facing catastrophic costs due to TB compared with 2015	0%	0%	0%

STRATEGIC APPROACHES

1. Integrated, patient-centred care and prevention

- Early diagnosis of tuberculosis including universal drug-susceptibility testing, and systematic screening of contacts and high-risk groups, awareness creation;
- Treatment of all people with tuberculosis including drug-resistant tuberculosis, and patient support including uninterrupted treatment for free to all patients;
- Collaborative tuberculosis/HIV activities, and management of co-morbidities;
- Preventive treatment of persons at high risk, vaccination against tuberculosis and other determinants of tuberculosis;
- Develop M&E framework with countries to track progress in the implementation of the Catalytic Framework;
- Establish forums for interaction and good practices at country, regional and continental levels.

2. Bold policies and supportive systems

- Political commitment with adequate resources for tuberculosis care and prevention;
- Engagement of communities, civil society organisations, public and private care providers;
- Universal health coverage policy, regulatory frameworks for case notification, vital registration; quality and rational use of medicines and infection control;
- Social protection, poverty alleviation and actions;
- Advocate for free diagnosis and treatment of TB cases.

3. Intensified research and innovation

- Discovery, development and rapid uptake of new tools, interventions and strategies;
- Research to optimise implementation and impact and promote innovations.

MALARIA

OBJECTIVES

MILESTONES AND TARGETS

	2020	2025	2030
 Infection Rate Number of malaria cases compared with 2015	60%	25%	0%
 Mortality Rate Number of malaria-related deaths compared with 2015	60%	25%	0%
 Country-wide Elimination Countries that have eliminated transmissions compared with 2015	8+	13+	47 (of 47)
 Country-wide Prevention of Re-establishment Prevent re-establishment of malaria in all countries that are malaria-free compared with 2015	100%	100%	100%

STRATEGIC DIRECTIONS

1. Transformation of current malaria control and elimination efforts into a continental movement aimed at rapid deployment of interventions based on evidence
2. Deployment of Africa's resources and infrastructure for malaria elimination operations in all countries and sub-nationalities within a set time

STRATEGIC APPROACH

1. Programme phasing, staging and transitioning consisting of five programme phases
2. Evidence based programme stratification and targeting of interventions
3. Maximal political commitment
4. Optimal community engagement
5. Proactive stewardship and accountability
6. Development and uptake of new technologies and tools
